## Proud to Partner with Your Community to Support the 43rd Annual National Night Out

Associa has served families in neighborhoods across North America for more than 48 years, and we're passionate about keeping kids safe and strong. That's why we established the Associa Supports Kids (ASK) program, which educates parents and their children about safety and promotes youth sports activities to help kids stay active.

To enhance this effort, we've proudly supported National Night Out for 15 consecutive years. Through ASK, we're eager to increase awareness about crime and drug prevention and strengthen partnerships between your neighborhood and local law enforcement. We thank you for showing your commitment to building police-community partnerships by hosting a National Night Out event.
